Medicine dispenser solution

Solution that helps users **take the right dose at the right time** with a smart pill box and mobile app

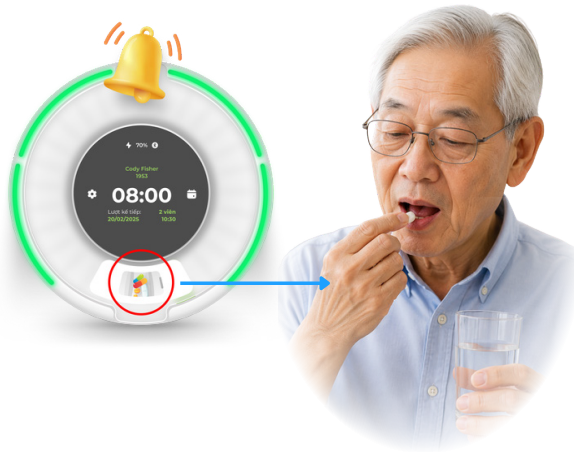

1 Place pills in the compartment

following the instructions in the app

2 Time to take medication

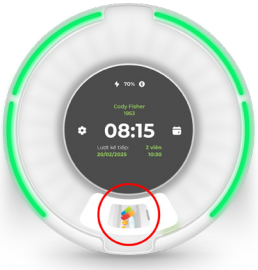

prescribed medication is ready in the corresponding compartment

After loading the medication, lock the box to prevent unnecessary opening

3 Pill box status after medication time

If not taken:
the medication remains in the compartment (reminder to take it)

If taken:
the compartment is empty (confirming the dose has been taken)

Ensure users do not exceed the prescribed dosage
