Water quality monitoring solution

Installed in one working day

No power wiring required

24/7 remote monitoring

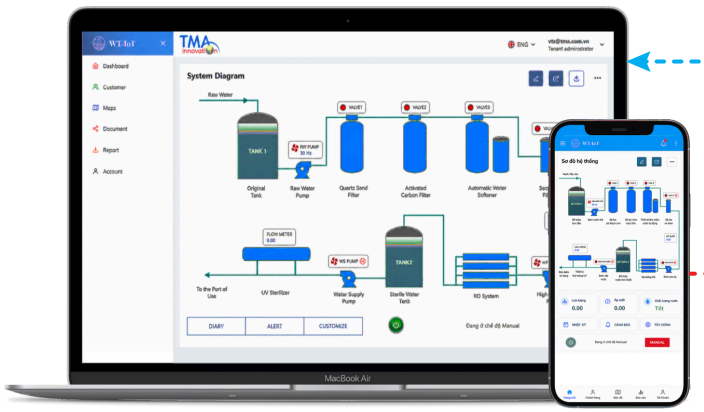

Data acquisition device

Support industrial protocol for sensors measuring:

- pH
- Turbidity
- Water level
- Water flow
- Dissolved oxygen (DO)
- Chemical oxygen demand (COD)
- Ozone concentration (O_3)
- Mixed liquor suspended solids (MLSS)

Remote monitoring software

Warning: Low DO
Current value: **3,2 mg/L**
Threshold: **≥ 4,0 mg/L**

Alerts when abnormal changes are detected
