Farm data collection & analytics

A digital solution that helps agribusinesses collect, manage, and analyze farm data for traceability and export compliance

Capture farm data easily using a smartphone in just 1–2 hours per week

Voice | Video | Image | Barcode

Data types

Farming activities | Weather conditions | Geographic location | Seed variety | Fertilization

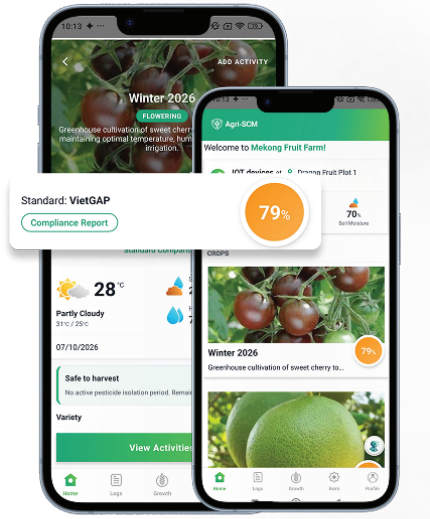

Guidance & reporting

Alert & monitor farming data

Collect & report data in real time

Guidance for standards compliance

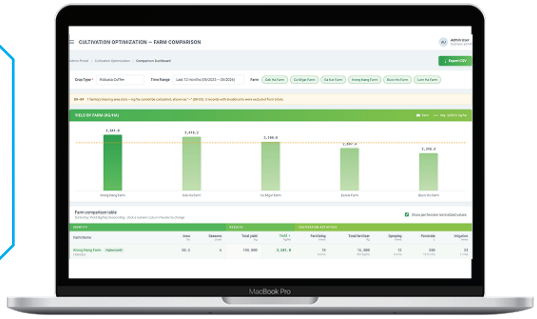

VietGAP | GLOBALG.A.P. | GS1

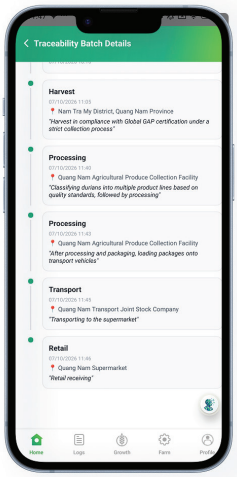

Farming optimization

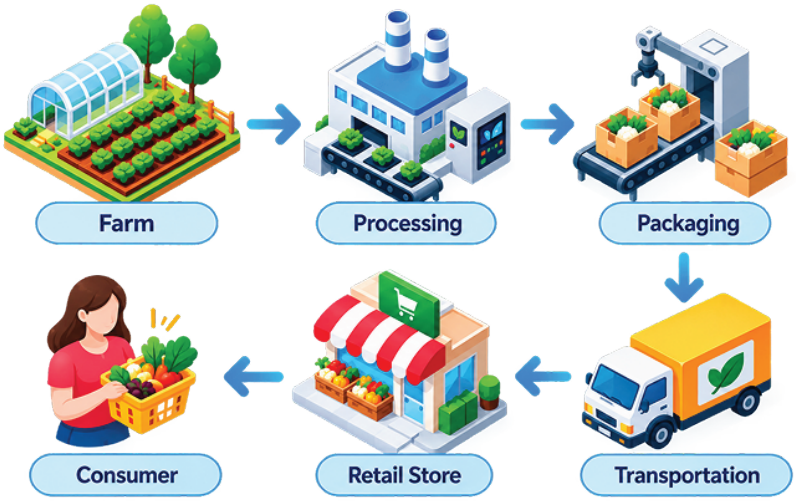

Compare yield, costs, and farming methods across farms

Recommend and scale up suitable models for each farm

End-to-end traceability from farm to retail
