AI-powered workforce analytics

Analyze workforce activity and operational performance
in real time across manufacturing environments

01 Camera-based Data Collection

02 AI Activity Analysis

03 Performance Insights & Reporting

CCTV

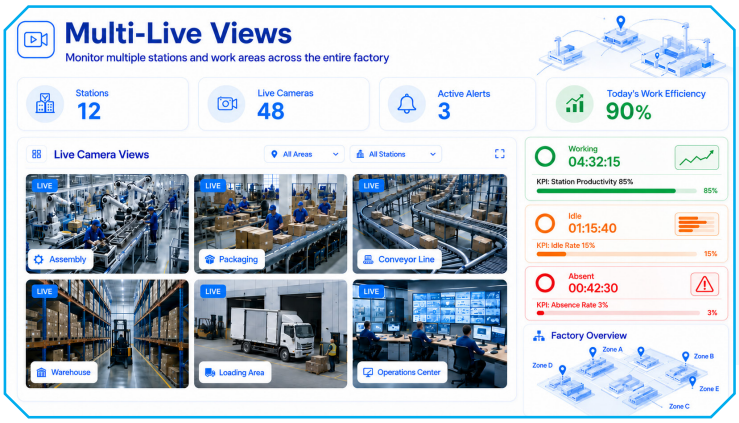

Utilize existing factory camera systems to optimize deployment costs

Deploy the solution directly within the enterprise environment to maintain greater control over data and privacy

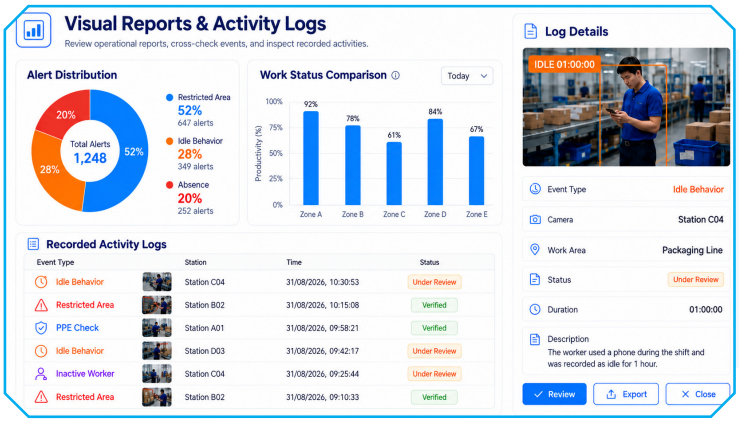

Flexibly customize behavior recognition criteria based on specific operational areas

www.tmainnovation.com (028) 3990 2698 contact@tmainnovation.com

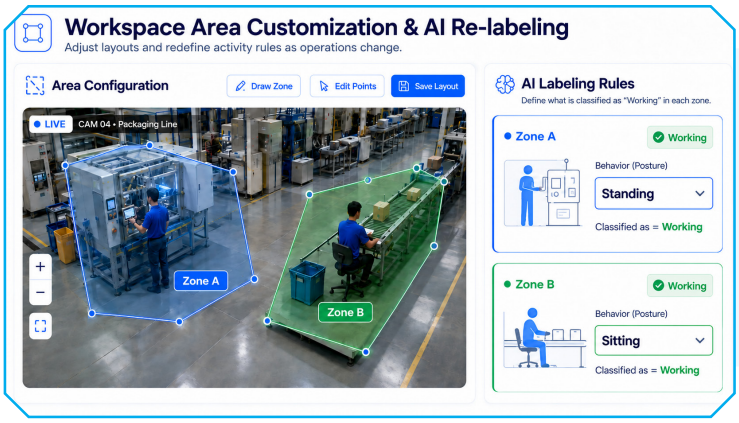

Key features

Monitor multiple workstations and operational areas in real time

Consolidate operational data into visual reports and detailed activity logs

Flexibly configure behavior recognition criteria based on real-world operational requirements

Ideal for workforce performance monitoring in factories, industrial facilities, and warehouses
